Subject: RE: Climax Molybdenum Mine - discuss future field visit and JD

I have sent an email to the Corps to check on the Corps attorney participation.

I will get back to you with their response.

Toney

Subject: RE: Climax Molybdenum Mine - discuss future field visit and JD I heard from HQ on the question of EPA taking the lead and they feel that you are doing a very good job, this is a 404 proposed action and your coordination efforts are great. Unless there is a change in the status, I am not hearing from anyone at EPA that there are plans to take the lead on this JD. The 14th is the first time I could schedule people on the call using our calendar. I will send a message asking everyone for an earlier day and time. Perhaps we can talk with a smaller group more informally prior to the 14th. Toney
